Free Your Feet Free Your Mind

Our Barefooth Path is the 1st in Florida!

Did you know? There are more receptors on our foot soles than any other body part! This is why we love pedicures and foot massages. Walking barefoot connects us with earth's natural energies. It's just like a free reflexology treatment. Connecting to healing earth energies is our human birthright and very beneficial for our bodies.

Activate Your Foot Reflexology

*The feet are the mirror
image of the body*

Anyone who has tried a reflexology massage knows about the ancient theory: every organ, every muscle and bone are interrelated with our feet via reflex pathways. The right half of the body is on the right, the left on the left foot. Targeted pressure points alleviate pain and activate self-healing powers.
